EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Dan Kim on February 9, 2004.

The application has been amended as follows:

In claim 1, line 4 and 5, the term "if desired with" has been changed to -- wherein --.

In claim 7, line 1, the term "Reactor" has been changed to -- A reactor --.

Replace claim 3 with the following:

3. A reactor as claimed in claim 2, wherein the number of chambers is from 12 to 96.

Add new Claim 8 as follows:

8. A reactor as claimed in claim 2, wherein the number of chambers is from 24 to 48.

2. The following is an examiner's statement of reasons for allowance:

The prior arts of record fail to teach discharge of a heat-exchange medium by means of one or more pumps, wherein the heat-exchange medium or a substream of the heat-exchange medium being passed through one or more external heat exchangers, the heat-exchange medium being fed to the lower ring line and being fed back to the pump via the upper ring line, and with baffle plates which leave a passage cross section alternately in the reactor center and the reactor edge, wherein the upper and lower ring lines are each divided into an inner and outer ring line by means of a cylindrical partition wall, and the heat-exchange medium is fed through the outer lower ring line, via a region outside the reactor to the inner upper ring line, via the latter's jacket apertures (5) to the space surrounding the contact tubes, via the jacket apertures (6) into the inner lower ring line and subsequently via a region outside the reactor is discharged via the outer upper ring line.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
